BATA INDUSTRIALS
THE SAFETY SHOE

SERIOUSLY.

YOUR SAFETY IS OUR RESPONSIBILITY.

It may not come as a surprise to you, but we are in the business of keeping professionals safe. And it doesn't get any more responsible than that. Or does it? Responsibility also means being honest. And to be honest, there is still a world to win for us when it comes to responsibility in terms of sustainability.

Of course, our company cannot simply become 100% 'green' overnight. Still we have made progress. We use more and more sustainable materials, work according to more eco-intelligent processes, and are steadily reducing our energy consumption. As we feel responsible for the people wearing our safety shoes, we feel responsible for our planet and the next generations living on it. A safer and cleaner footprint? We are on it!

Enjoy our brand new catalog and if you have any questions or suggestions, please mail us at nl.marcom@bata.com.

Stay safe,

Martijn Mathot
Managing Director

FINDING THE PERFECT MATCH

We know what moves you. We know that people work at their best when they have the right equipment, are well-protected and feel comfortable. Keeping them safe, healthy, active and energized. That's exactly what we're going for.

Through our extensive knowledge and broad experience in various working environments, we know exactly what you need, what your circumstances are, what challenges you face and how you move throughout your day.

Bata Industrials has selected 6 main industries to focus on when we develop our shoes. But it doesn't stop there! We know how much jobs in a single area can vary. That's why we created a perfect footwear solution for any job that needs to be done. The perfect match for your needs

and wishes. We are more than happy to advise you.

For example, we have developed different sole materials and profiles for any working surface. And no matter what climate or weather condition you work in: we have the right upper available. From waterproof to extremely breathable.

Whatever the environment or circumstances, Bata Industrials always has The Safety Shoe.

RADIANCE COLLECTION

Seriously safe. Seriously boosting.

The Radiance collection is designed with an eye for style, safety and comfort. In addition to the sporty look, the shoes offer maximum protection and ultimate comfort. All day long. To give your feet the highest level of comfort, the Radiance collection features a special lightweight EVA midsole with 3B-Motion Technology: Bata's Boosting

Base. This gives feet a huge power boost every step of the way. In combination with an inlay sole of high elastic EVA and the robust SRC certified Vibram® outsole, this ensures an optimal level of comfort and energy return. Even after a long working day your feet still feel comfortable and you still have a lot of energy left!

BRIGHT COLLECTION

Seriously safe. Seriously colorful.

Safe doesn't have to mean boring! The Bright Collection proves that safety shoes can be as stylish as you want them to be. This colorful range of shoes is made from lightweight fabrics and equipped with a robust Vibram® outsole. This type of outsole is best

known for its superior quality and performance in terms of SRC slip resistance. Bright safety shoes have a FlexGuard® composite penetration resistant insert, a composite toecap and are detection friendly or even completely metal free.

BOA® FIT SYSTEM

Engineered to provide the highest level of comfort in the toughest of working conditions.

BOA®

Fast, effortless, precision fit

The Boa® Fit System offers the freedom to dial fit in and makes shoe laces obsolete. The High Performance Fit System is quickly adjustable and guarantees a lifetime of carefree work days without laces untangling.

Every construction and configuration is purpose-built for performance by using three integral parts: a micro-adjustable dial, superstrong lightweight laces and low-friction guides.

HELIX ULTRA COLLECTION

Seriously safe. Seriously robust.

We have partnered with a number of highly regarded brands to produce the Helix Ultra work boot range. These boots are 15% lighter than it's predecessor, making them amongst the lightest boots in it's class.

We have worked with Michelin to design a specific sole to outperform the harsh working environment with quality rubber, maximum flexibility and absolute grip. The soft cushioned PU midsole material is specially formulated with BASF's Elastopan which gives the boot its lightness, while D30 is a shock absorbing material in the heel of the boot. These features return more energy with each step, reduces shock on your joints and maximizes comfort. The Helix Ultra is built for those who work in the construction and mining industries, trades and DIY enthusiasts. You will find this boot provides a sturdy reinforcement for an all-day comfortable wear.

OIL & GAS COLLECTIONS

Seriously impact resistant

For jobs under hard conditions, these two collections (Helix and Energy) are specially developed for all diggers, riggers and drillers who work in the Oil & Gas Industry. These boots can take a beating when you have to work all day in rocky areas extracting crude oil and natural gas.

BICKZ COLLECTION

Seriously safe. Seriously functional.

The Bickz collection is the perfect combination of functionality, safety and design. The rubber outsole provides excellent oil, acid and heat resistance (300°C) and optimum grip, so you can walk confidently around your work site. Additionally, the molded EVA midsole offers comfort and the TPU arch shank (available in Bickz 720 & Performance 4-2) enhances stability and prevents twisting of the foot. On-the-go professionals will find comfort in the Performance 4-2, providing ultimate safety with the benefits of a metal free shoe.

SAFETY ALWAYS COMES FIRST. RIGHT?

BATA INDUSTRIALS
THE SAFETY SHOE

SPORTMATES® COLLECTION

Seriously safe. Seriously sporty.

The new Sportmates® collection features a high rebound energy cushioned midsole made from an EVA compound that is super flexible & lightweight.

Fused within the heel of the midsole is a shock absorbing heel disc which generates stable cushioning across the heel, thus effectively reducing the impact of movement and providing a higher level of comfort. By combining the two materials together the sportmates range can help reduce impact strain to the lower leg, back, ankle, knee and hip joints.

EQUATOR COLLECTION

Seriously safe. Seriously energizing.

Work safely and look good doing it. The Equator collection combines safety, comfort and style into one design. Equator models are available in S1 and S1P standards. They include advanced features such as our ingenious Tunnelsystem® for the best possible shock absorption. The Easy Rolling System® prevents fatigue and loss of concentration, and in return saves energy and increases comfort.

PU-PU WALKMATE COLLECTION

Seriously safe. Seriously supportive.

The PU-PU Walkmate collection will make you feel safe throughout the day. Day & night. Packed with features unique to safety shoes, such as our Tunnel System® and Easy Rolling System®, these safety

shoes are also incredibly lightweight. Charleston and Conga have all these benefits, plus reflective strips on the upper to promote safety at night or in dark working environments.

Both models are available for the Indonesian market. Charleston is available for Malaysia.

APAC PVC GUMBOOTS COLLECTION

Seriously safe. Seriously durable.

Our PVC boots collection is much more durable and comfortable than it might seem at first glance. The PVC material is extremely soft and flexible, allowing it to bend easily along with your every move.

Our non-safety range is suitable for F&B, agriculture and hospitality industries. Our safety PVC boots, on the other hand, will protect you in rougher working environments such as construction sites.

- > Size range: 38-46

All models are available for the Indonesian market. Ash, Oak and Pine are available for Malaysia.

PROFESSIONALS COLLECTION

Seriously lightweight and comfortable.

Timeless lightweight and comfortable, this is the professional collection. The shoes are made for walking in the Food Industry, Facilities, Medical and Uniformed sectors. The slip resistant soles, which can be found on all shoes within the collection, are ideally suited for slippery surfaces. The unique pattern of the sole is SRC certified. The comfort in the shoes is

excellent due to the Ortholite insoles. This allows you to keep performing throughout the day. Every shoe in the collection is equipped with a heat resistant rubber outsole. This durable outsole can withstand extremely high temperatures of up to 300°C. The ELEVATE AT is equipped with an alloy toecap, the other shoes in the collection are non-safety models.

MAMMOET COLLECTION

Extreme safety for extreme conditions.

Mammoet makes high demands on the safety shoes for their professionals. Bata Industrials has all the expertise and years of experience to make the best safety shoes. Together we have developed a collection of shoes, boots and socks of superior quality. The shoes and boots are made of full grain leather with an extra soft PU inlay sole and a SRC certified rubber

outsole. A premium collection that incorporates the latest technologies. The innovative Tunnelsystem® provides maximum shock absorption. Thanks to the HDry® membrane the shoes are waterproof, Odor Control® prevents unpleasant odors and the breathable Bata Cool Comfort® lining keeps your feet cool and dry. All to keep you fit, alert and therefore safe at work.

SUMM+ COLLECTION

No compromise.

Introducing the SUMM+ collection: high-resistance safety shoes combining safety, durability and comfort, without ever compromising on style.

The SUMM collection features seven lightweight, stable and slip resistant models. Designed with an eye for Italian craftsmanship and style, these safety shoes look stylish and keep your feet protected even in the toughest work conditions. From leather to technical nylon, microfiber, PUTek® and

more, all premium materials in SUMM reflect their superior performance and longevity. SUMM safety shoes feature a PU/TPU-sole (SRC) with a uniquely designed profile surface for an advanced level of slip resistance. Lightweight aluminum toecaps and FlexGuard® composite penetration resistant inserts provide maximum protection. The Premium Fit inlay sole offers greater comfort, shock absorption and stability. Plus, every SUMM model is EN ISO 20345:2011 certified and ESD.

SUMM+ THREE ESD

- > Safety category: S1P SRC
- > Breathable mesh upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

safety + durability + comfort + style

SUMM+ FOUR ESD

- > Safety category: S1P SRC
- > Breathable mesh upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

SUMM+ ONE ESD

- > Safety category: S3 SRC
- > Technical nylon upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

SUMM+ TWO ESD

- > Safety category: S3 SRC
- > Technical nylon upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

SUMM+ FIVE ESD

- > Safety category: S3 SRC
- > Action leather upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

SUMM+ SEVEN ESD

- > Safety category: S3 SRC
- > Putek fabric upper
- > FlexGuard composite penetration resistant insert
- > Aluminum toecap
- > Odor Control mesh lining
- > TPU outsole
- > Premium Fit insole
- > Size range: 38-48

BLOOM

Our new Bloom foam insoles are made from a sustainable algae-based material that helps to remove harmful algae and reverse the effects of water pollution and rising global temperatures by restoring healthy ecosystems and generating clean water.

The Bloom insole provides a sustainable alternative to non-renewable petroleum-based foams. So with one insole, we are cleaning 7 litres of water and 4 cubic metres of air.

For more technical info, visit www.bataindustrials.com.au to download the data spec sheet.

THE SAFETY STANDARD

If a shoe carries a CE-label, this indicates the following: the product meets the requirements of European Regulation 2016/425 regarding personal protective equipment. The CE-standard EN ISO 20345 consists of two parts. The basis label means that a product meets a number of basic requirements. If the product also meets certain additional requirements, this is indicated by a symbol on the shoe.

EXPLANATION OF THE SYMBOLS

- OB** Professional shoes without a toecap
- SB** Protective footwear for professional use with toecaps designed to give protection against impact when tested at an energy level of 200 joules
- S1** As SB plus antistatic properties, energy absorption of seat region, closed heel and resistance to fuel oil
- S1P** As S1 plus anti penetration resistant insert
- S2** As S1 plus water resistance and water absorption of upper material
- S3** As S2 plus anti penetration resistant insert and cleated outsole
- S4** All-rubber or all-polymer footwear, antistatic properties, energy absorption of seat region, protective toecap, closed heel and resistance to fuel oil
- S5** As S4 plus anti penetration resistant insert and cleated outsole

Additional requirements for special applications with specific marks:

- P** Penetration resistance
- C** Conductive
- A** Antistatic
- E** Energy absorption
- I** Insulating footwear
- M** Metatarsal protection 100 J impact energy
- HI** Insulation against heat
- CI** Insulation against cold
- CR** Cut resistant footwear
- AN** Ankle protection
- WR** Water resistant footwear
- WRU** Water resistant upper
- FRU** Flame resistant upper
- HRO** Heat Resistant Outsole
- SBH** Hybrid footwear
- ESD** Electrostatic discharge
- SRA/SRB/SRC** Slip resistance

CAREFULLY READ THESE INSTRUCTIONS BEFORE USING THIS PRODUCT: This footwear is designed to minimize the risk of injury from the specific hazards as identified by the marking on the particular product (see marking codes above). However, always remember that no item of PPE can provide full protection and care must always be taken while carrying out the risk-related activity.

PERFORMANCE AND LIMITATIONS OF USE – These products have been tested in accordance with EN ISO 20345:2011 for the types of protection defined on the product by the marking codes explained above. However, always ensure that the footwear is suitable for the intended end use.

FITTING, SIZING – To put on and take off shoes or boots, always fully undo the fastening systems. Only wear footwear of a suitable size. Shoes that are either too loose or too tight will restrict movement and will not provide the optimum level of protection. The shoe size is always clearly marked on our shoes.

COMPATIBILITY – To optimize protection, in some instances it may be necessary to use this footwear with additional PPE such as protective trousers or over gaiters. In this case, before carrying out the risk related activity, consult your supplier to ensure that all your protective products are compatible and suitable for your application.

SOCKS & COMFORT – Wear Bata Industrials socks, change your socks regularly and, in case of perspiration, take alternating hot and cold baths. Use soap sparingly. Change shoes regularly: leather is a natural product and should be allowed to rest.

Check www.bataindustrials.com to contact our shoe advisor or to view all the standards that apply on each of our shoes. Risk analysis is always the responsibility of the prevention advisor. The prevention advisor, in consultation with the hierarchical line, prepares the advice whereby the employer undertakes the necessary actions.

SERIOUSLY.
